

Child's Play

Child's Play Charity is opening up applications for phase two of our shelter program. The application is for a Child's Play game case which is a self-contained portable unit that holds a TV and a video game console. Not only can these units provide entertainment for the kids while at the shelter, they can also be used as a form of therapeutic play. A way for staff to open up conversations and a tool that can be taken off site to help provide a distraction while conversations happen with the parent.

Our plan is to send out four of these units a month for the next year or two. Once you have submitted an application, there is no need to resubmit. The application remains on file for a year. The games will be preloaded on the console by Fully Loaded Electronics to eliminate the need for discs. The game titles are rated "E" for everyone or "E10+", they may contain comic mischief or cartoon violence, but no blood, gore, or realistic violence. Please find the list of games included below:

Madden NFL Football 18	FIFA Soccer 18
Forza Horizon 3	LEGO: Marvel Avengers
Minecraft	Ori and the Blind Forest: Definitive Ed.
Rocket League	Rayman Legends
Abzu	Shovel Knight
Peggle 2	

More information about the GAEMS case can be found here: <https://gaemspge.com/>

More information about Fully Loaded Electronics can be found here: <https://fullyloadedelectronics.com/>

Child's Play

To be considered for a Child's Play game case please fill out the information requested below.

Submit completed applications to: **shelter@childsplaycharity.org**
