

Child's Play | 9660 153rd Ave NE | Redmond, Washington 98052 | www.childsplaycharity.org

Thank you for your interest in joining the Child's Play network of partner hospitals.

Child's Play seeks to improve the lives of children in hospitals around the world through the kindness and generosity of the video game industry and the power of play.

Founded in 2003, Child's Play is a 501(c)(3) charity registered in Washington state, and we partner exclusively with non-profit facilities to provide games and technology to help pediatric patients worldwide.

Here's how being a Child's Play Partner Hospital works from a functional perspective:

1. We work with you to create an Amazon Wish List for your facility Child Life or Play Therapy Dept. We can also use an existing one if you already have one.
2. We drive donor traffic to this Wish List.
3. Generous gamers from all over the world buy items off the list, which are shipped directly to your hospital.

We also accept cash donations from donors who don't wish to buy online which we disburse in the summer each year. As well as in-kind donations from game companies and toy makers which we send as a care package in the summer. This can include consoles, video games and toys for your patients to use during their stay.

Requirements: Applicants must be currently registered as a 501(c)(3) non-profit organization in the USA, have equivalent status or be a government institution for International charities. We also require partner hospitals to have at least 20 inpatient beds. Once completed, please email this form to foundation@childsplaycharity.org. Please provide the following information to apply.
